Supplier Quality Notification
Purchased Product Palletizing Requirements

To our Valued Suppliers:

BAE Systems, Combat Mission Systems, would like to **express notification** to our supply base, of the Supplier Quality Assurance Manual (SQAM) section 9.1 part palletizing requirement changes. The following new requirement for palletizing direction will be found at the bottom of page 22 section 9.1, please take note and ensure shipments follow this requirement:

“The Supplier is prohibited from shipping parts/components on pallets constructed from lumber that has been pressure treated and/or has received metallic wood preservatives.”

Thank you for your support!
