Supplier Quality Notification

Supplier Welding Procedure Submission Form

To Our Valued Suppliers:

The following updates have been implemented to revision 09 of 089136, the Supplier Welding Procedure Submission (SWPS) Form, effective immediately:

- A detailed cover page has been added to the form to thoroughly describe the requirements and expectations the supplier shall adhere to when submitting a SWPS Form for BAE Systems' Weld Engineering review.
- The cover page shall include factors that drive a supplier to resubmit a SWPS form for BAE Systems' Weld Engineering review.
- The cover page shall include explicit circumstances for immediate rejection of the SWPS Form prior to BAE Systems' Welding Engineering review.
- The SWPS Form has been modified to include 'Weldment Information', along with the Weldment Part Number and Weldment Revision, which was previously referenced as 'Part Information' on previous revisions.
- The SWPS Form has been updated to include a section for 'Weldment Component Information', which consists of a table to list all applicable Welded Components, Weld Procedures, and Base Material Used in which the SWPS Form is submitted for.

Be sure to frequently check the BAE Systems' Purchasing Website for latest revisions of the form, updates, and notifications. Thank you for your cooperation.
